 **Hazardous**

Items with this mark may be considered hazardous under some shipping conditions.

If necessary, we will change your selected shipping method to accomodate these items.

Single wavelength (generic) Pocket Colorimeter™ II instruments measure absorbance at a fixed wavelength. The Pocket Colorimeter II offers accuracy and reproducibility comparable to expensive lab instruments, but is designed for a long working life in harsh conditions. A long-lasting LED is used as the light source, and low power requirements assure long battery life. Just four buttons allow easy operation. Create and store one or two calibrations for use in your own application. No manual calibration is ever required. Simply zero the instrument with a blank, insert the reacted sample, and read the result. The IP67 rating means the Pocket Colorimeter II will resist the elements and still function properly. A tough, impact-resistant shell protects the electronics and optics. It weighs only 0.2 kg—about a half pound.

**Simple as ever**

**Waterproof, IP67 rated**

**Large, backlit display and data logging**

**Accurate, reproducible measurements**

**Backlit display**

### Specifications

Battery Requirements:	4, AAA
Case Style:	Q (2 cases)
Compliance Certifications:	European CE mark
Detector:	Silicon detector
Dimensions (H x W x D):	155 mm x 61 mm x 35 mm
Display:	LCD, backlit
Enclosure Rating:	IP67
Instrument:	Kit includes PC II
Lamp Type:	Light Emitting Diode (LED)
Method:	10050
Method Name:	Colorimeter/  Immunoassay
Model:	Pocket  Colorimeter™ II

Number of tests:	Up to 18
Parameter:	PCB in Soil
Power Supply:	Batteries (see Battery Requirements)
Range:	1, 5, 10, 50 ppm thresholds
Warranty:	1 year
Wavelength Accuracy:	Fixed wavelength $\pm$ 2 nm varies with model
Weight:	0.23 kg

---

## What's in the box?

Includes Pocket Colorimeter II, soil extraction kit (portable balance, weighing boats, soil scoop, filtration apparatus, sample containers, droppers, spatulas, soil extractant, sodium sulfate), PCB reagent set, TenSette Pipet and tips, cuvette rack, deionized water, timer, marker, wipers, instructions and carrying cases. Contains enough consumables for approximately 18 tests.
